

- Each Block (loop) can be renamed. Never mistake your verse for your chorus again!
- Count-up / count-down timer shows how much time remains in the current Block!
- Stylish VU meter animated display!
- New sound samples have been added, and sound definitions have been updated to take advantage of the new features. Yes, yes, you can do dubstep.

...and many other features and adjustments from three years of testing, recording songs, and performing in live shows.

Rhythm Core Alpha 2™ will be available immediately in the Americas in the Nintendo DSi™ Shop for 1000 Nintendo Points, and in the Nintendo eShop on Nintendo 3DS for \$10 USD. A European version is scheduled for release on August 15th for a price of €10. The original version of **Rhythm Core Alpha™** is still available for budget-minded musicians for 500 Nintendo Points, or \$5, or €5.

Both programs can be found in the Nintendo eShop on Nintendo 3DS and the Nintendo DSi Shop by searching for "Rhythm Core Alpha".

More information, songs, screenshots, etc. will soon be available from the official Rhythm Core Alpha website at <http://www.rhythmcoragealpha.com>.

RHYTHM CORE ALPHA 2™

Nintendo eShop DSiWare™

About SoftEgg

SoftEgg is the company of veteran game developer T. B. Trzepacz, whom has worked on over twenty game titles, including several multi-million selling franchises.

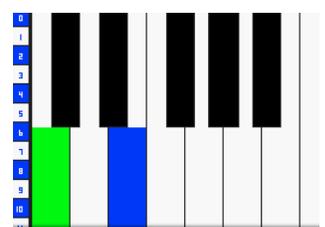

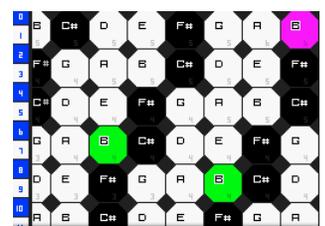

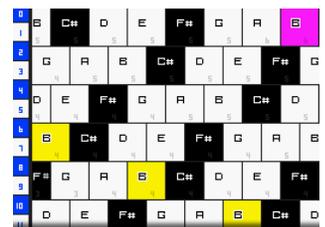

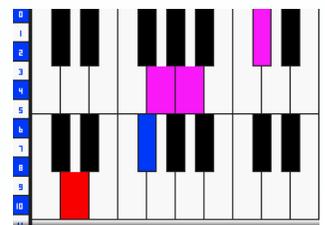

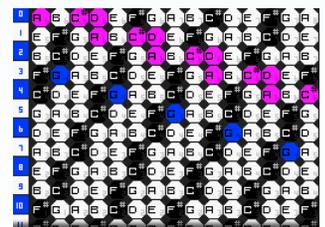

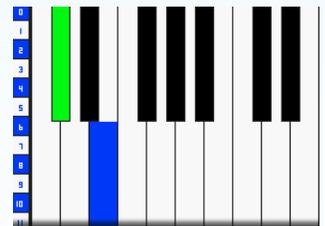

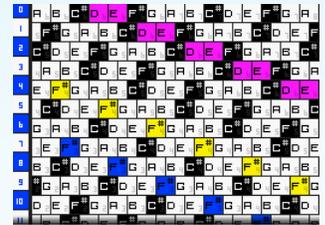

Originally founded in 1995 for the release of "Princess Maker 2", SoftEgg later went on to provide contract programming assistance to many other companies on a wide variety of game titles for many platforms.

In 2007, SoftEgg became an officially licensed Nintendo developer. In 2009, SoftEgg began working on original products to be distributed in the Nintendo DSi Shop. **Rhythm Core Alpha™** was the first of those products. After three years of continuous development and testing, their second internally-developed product **Rhythm Core Alpha 2™** is finally being released!

For more information, please see our corporate website at <http://www.softegg.com>, or visit the **Rhythm Core Alpha™** website at <http://www.rhythmcoragealpha.com>. We also have a group on Facebook at <http://www.facebook.com/group.php?gid=123510537671498>.
